## GSC 2015 - The Annual Workshop of Graduate Students in Systems & Control

Under the auspice of IAAC – the Israeli Association for Automatic Control

*Sponsored by*

*Bernard M. Gordon Center for Systems Engineering at the Technion*

**Monday, May 4, 2015**

Department of Aerospace Engineering  
Technion – Israel Institute of Technology

### CALL FOR PRESENTATION

---

Dear Friends and Colleagues,

Continuing the successful tradition of previous years, we are happy to announce GSC 2015 - the annual meeting of graduate students in the field of *Control and System Theory* (in the wide sense). The event will take place on Monday, May 4, 2015 and will be hosted by the Department of Aerospace Engineering at the Technion.

As always, the meeting is intended as a platform for exchanging ideas among students and senior faculty from various departments and institutions in Israel. In more detail, the meeting provides:

- A unique opportunity for graduate students to present their work before a professional audience and obtain feedback on it.
- A chance for the graduate students to observe the work of their peers and get acquainted with the Israeli faculty and Industry in their field.
- A meeting place between Academia and Industry.
- An opportunity for us, the supervisors, to learn about each other's current research interests.

We solicit 20-25 minutes presentations by students. The required submission information is detailed at the end of this call. Priority will be given to graduate students who are in the final stages of their research. However, significant partial results may also be included. Please provide the material requested below by **April 12, 2015**.

As in the last seven years, the Velger prize will be awarded to an outstanding paper presented at the workshop. This prize has been established jointly by El-Op and IAAC on the name of the late Dr. Marco Velger, a distinguished member of the Israeli control community. Students who wish to be considered for this prize are encouraged to submit supporting material according to the price regulations located on the web site of IAAC - the Israeli Association for Automatic Control at <http://iaac.technion.ac.il/education/VelgerPrizeRules.pdf>.

The success of the event depends on the participation of both the students and the faculty members, and I hope that you and your students will be able to join us.

We would appreciate your help in spreading this call to relevant faculty who may not be on our mailing list - especially newcomers and researchers with related interests.

We look forward to receiving your contributions!

With best wishes,

Moshe Idan  
GSC 2015 organizer
