

GSC 2019 - The Annual Workshop of Graduate Students in Systems & Control

Under the auspices of IAAC – the Israeli Association for Automatic Control

Sponsored by the Technion Faculty of Electrical Engineering

CALL FOR PRESENTATIONS

Dear Friends and Colleagues,

We are pleased to announce GSC'19 — the annual meeting of graduate students in the field of Control and Systems Theory (in the broad sense). This year the event will take place on Monday, April 29, 2019, at the Viterbi Faculty of Electrical Engineering, Technion.

Continuing the successful tradition of previous years, this meeting is intended as a casual platform for exchanging ideas among students and senior faculty from various institutions in Israel. It aims at offering graduate students a stage for sharing insight and excitement about their research in front of a professional audience. The meeting also gives students a unique opportunity to learn about the work of their peers, get acquainted with the Israeli faculty in their field, and meet potential industrial employers. Additionally, GSC events serve a meeting place between academia and industry. We solicit 20–25 minutes presentations by students. Please provide, by March 23, 2019, the following details (in PDF, Word or plain text, all in English), sent to shimkin@ee.technion.ac.il:

- ❖ Name and affiliation (department and institution),
- ❖ Degree program (M.Sc./Ph.D.) and the expected graduation date,
- ❖ Thesis supervisor(s),
- ❖ Talk title,
- ❖ Talk abstract (up to one page).

Priority, if needed, will be given to presentations reporting on final stages of the research, and to GSC newcomers.

Following the Velger prize tradition of past years, best paper awards (one or two) will be granted to outstanding presentations. Nominations of candidates for the award should be submitted only by the student's thesis advisor, concurrently with the submission of the talk abstract. For details please see the prize regulations at the IAAC website:

<http://iaac.technion.ac.il/education/GSCprize2019.pdf>

The success of the event depends on the active participation of both the students and their supervisors. We hope that you and your students will be able to join us. Please consider also spreading this call to relevant faculty who may not be on our mailing list, especially newcomers and researchers with adjacent interests.

We look forward to receiving your contributions.

With best wishes,

Ron Meir, Nahum Shimkin (GSC'19 organizers)

Moshe Idan (IAAC president)
