

## Call for presentations

## קול קורא להגשת הצגות

Dear Friends and Colleagues,

We are pleased to announce GSC'22—the annual meeting of graduate students in the fields of Systems and Control Theory. This year the event will be hosted on Monday, May 16, 2022, by the Technion's Faculty of Aerospace Engineering.

Continuing a long and highly successful tradition, this meeting is intended as a non-formal platform for exchanging ideas among students and senior faculty from various Israeli institutions. It aims at offering graduate students a stage for sharing insight and excitement about their research in front of a professional audience. The meeting also gives students a unique opportunity to learn about the work of their peers, get acquainted with Israeli faculty in their fields, and meet potential employers. Additionally, it facilitates meetings between academia and industry people.

We solicit 20–25 minute presentations by students. Submitted as a plain text e-mail message with the title "GSC 22" by **April 26, 2022** to [yaakov.oshman@technion.ac.il](mailto:yaakov.oshman@technion.ac.il), applications (in English only) should include:

- student name and affiliation (department and institution),
- graduate studies program (M.Sc./Ph.D.) and expected graduation date,
- thesis supervisors and their affiliations,
- talk title and abstract (up to 500 words, may contain simple standalone L<sup>A</sup>T<sub>E</sub>X code).

Depending on the number of submissions, we will prioritize, if needed, presentations reporting on final stages of the research, as well as GSC newcomers.

### IAAC GSC Award

As in past years, the GSC Award will be granted to an outstanding paper presented at the workshop. Advisers wishing to nominate their students as candidates for the award should submit supporting material by April 26, 2022 in accordance with the award's regulations, as posted on IAAC's website.

We hope to see you and your students in GSC'22! We would also be grateful if you could help us in spreading this Call to relevant faculty who may not be on our mailing list, in particular newcomers and researchers with close interests.

Looking forward to a successful GSC workshop,

YAAKOV OSHMAN      GSC'22 Organizer  
LEONID MIRKIN      IAAC President

איגוד ישראל לביקרה אוטומטית

National Member Organization of IFAC and IAIN

Call for Presentations at IAAC workshop

# Graduate Students in Systems and Control

GSC'22

to be held in **Room 165**, Faculty of Aerospace Engineering, Technion—IIT  
on Monday, May 16, 2022 (Iyar 15, 5782)

Organizer: **Yaakov Oshman** (Technion—IIT)

We are grateful to the organizations below, whose support makes holding IAAC events possible

— Applied Materials Israel Ltd. —

— Cielo Inertial Solutions Ltd. —

— Elbit Systems Ltd. —

— RAFAEL—Advanced Defense Systems Ltd. —

— Shimon Peres Negev Nuclear Research Center —
