

Call for presentations

קול קורא להגשת הצגות

Dear Friends and Colleagues,

We are pleased to announce GSC'23—the annual meeting of graduate students in the fields of Systems and Control Theory. This year the event will be hosted on Monday, May 8, 2023, by the Ben-Gurion University of the Negev Departments of Biomedical Engineering and Mechanical Engineering.

Continuing a long and highly successful tradition, this meeting is intended as a non-formal platform for exchanging ideas among students and senior faculty from various Israeli institutions. It aims at offering graduate students a stage for sharing insight and excitement about their research in front of a professional audience. The meeting also gives students a unique opportunity to learn about the work of their peers, get acquainted with Israeli faculty in their fields, and meet potential employers. Additionally, it facilitates meetings between academia and industry people.

We solicit 20–25 minute presentations by students. Submissions should be typed-in to the following link <https://forms.gle/VD6gpmFrCiHZQbY86> by **April 22, 2023**, and should include, in plain text,

- student name and affiliation (department and institution),
- graduate studies program (M.Sc./Ph.D.) and expected graduation date,
- thesis supervisors and their affiliations,
- talk title and abstract (up to 500 words, may contain simple standalone L^AT_EX code).

We will prioritize, if needed, students in final stages of the research, and GSC newcomers.

IAAC GSC Award

As in past years, the GSC Award will be granted to an outstanding paper presented at the workshop. Advisers wishing to nominate their students as candidates for the award should submit supporting material by April 22, 2023 in accordance with the [award's regulations](#), as posted on IAAC's website.

We hope to see you and your students in GSC'23 at Ben-Gurion University of the Negev! We would also be grateful if you could help us in spreading this Call to relevant faculty who may not be on our mailing list, especially newcomers and researchers with close interests.

Looking forward to a successful GSC workshop,

ILANA NISKY & DAVID ZARROUK GSC'23 Organizers
LEONID MIRKIN IAAC President

National Member Organization of [IFAC](#) and [IAIN](#)

Call for Presentations at IAAC workshop

Graduate Students in Systems and Control

GSC'23

to be held in **Barkan Hall**, Ben-Gurion University of the Negev
on Monday, May 8, 2023 (Iyar 17, 5783)

Organizers: **Ilana Nisky & David Zarrouk** (BGU)
